The Bethany Memorial Trees

Since 1944 Bethany Orphans' Home has had a tradition of providing a lasting memorial to friends and family of not only the children who lived on the campus but also to those who dedicated their lives to the children and campus.

As the Home evolved through the years and the environment has changed, we have seen a few of our trees lost to a host of elements; however, it is important to pay respect to those who have and continue to be memorialized as members of the Bethany Children's Home campus.

After one of our alumni, William "Pop" Augustine, spent a great deal of time refurbishing our memorial plaques, this month we placed them back on the campus, as close as we could get them to where they should be based on our maps. Some trees have been lost, but the memorials were placed as close to the original spot with a new tree. Quite possibly the saddest of those lost were all the oak trees that once lined the long, beautiful driveway from Yundt Memorial.

This month's newsletter is dedicated to them and their memory.
